Graphic Arts MONTHLY

Seybold returns to its roots--to Boston and focus on print

*Hadley Sharples.* Graphic Arts Monthly. Newton: **Apr 1999**.Vol.71, Iss. 4; pg. 86, 5 pgs
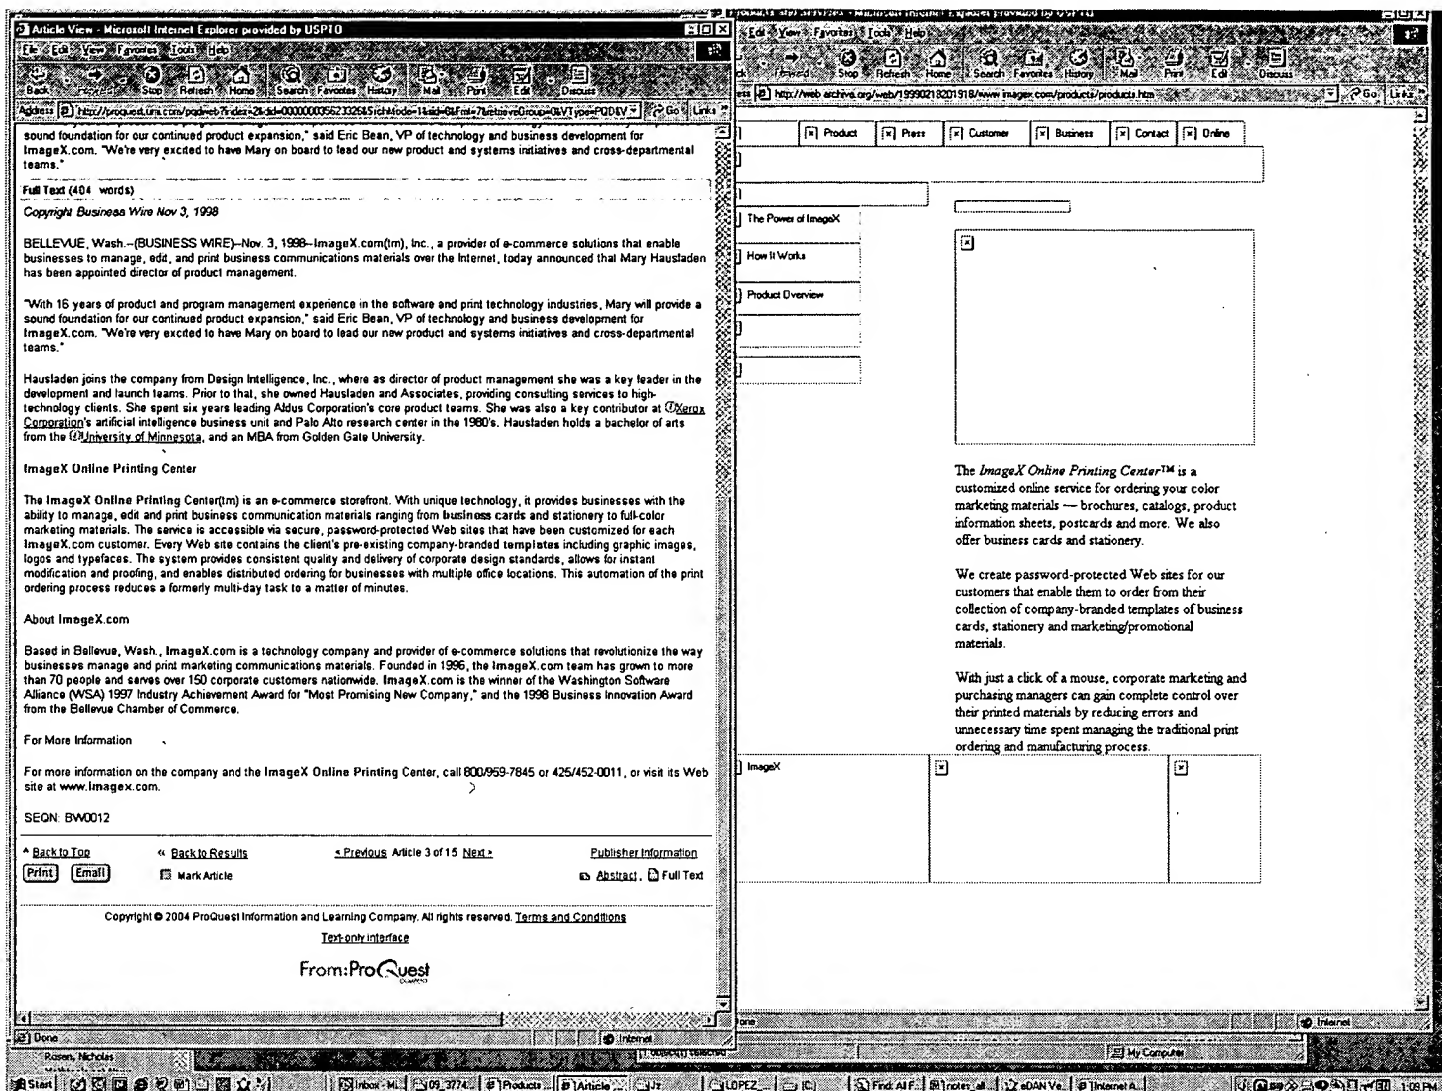

FROM WEB TO ON-DEMAND

Evidence of the growing influence of the World Wide Web in publishing was everywhere. The Web is not only an imporant publishing medium, but is becoming a vital tool for the print production workflow," said Gene Gable, vice president and general manager of Seybold Seminars.

One session in the Publishing Strategies conference featured several approaches to e-commerce for **Web**-based **printing** services, as speakers offered a model for printers to move many of the transactions in the print procurement process to the Web.

For example, iPrint is a Webbased quick print shop that allows customers to design and order business cards, stationery, and other printed materials on its Web site. **ImageX**.com offers a similar service for medium to large-size corporations through custom **Web** sites the company builds that allow customers to manage the **print** procurement process.

For printers interested in moving into e-commerce, Collabria and Impresse offer software systems that manage the entire business workflow of a printing company over the Internet.

sound foundation for our continued product expansion," said Eric Bean, VP of technology and business development for ImageX.com. "We're very excited to have Mary on board to lead our new product and systems initiatives and cross-departmental teams."

Full Text (404 words)

Copyright Business Wire Nov 3, 1998

BELLEVUE, Wash.—(BUSINESS WIRE)—Nov. 3, 1998—ImageX.com(tm), Inc., a provider of e-commerce solutions that enable businesses to manage, edit, and print business communications materials over the Internet, today announced that Mary Hausladen has been appointed director of product management.

"With 16 years of product and program management experience in the software and print technology industries, Mary will provide a sound foundation for our continued product expansion," said Eric Bean, VP of technology and business development for ImageX.com. "We're very excited to have Mary on board to lead our new product and systems initiatives and cross-departmental teams."

Hausladen joins the company from Design Intelligence, Inc., where as director of product management she was a key leader in the development and launch teams. Prior to that, she owned Hausladen and Associates, providing consulting services to high-technology clients. She spent six years leading Aldus Corporation's core product teams. She was also a key contributor at Xerox Corporation's artificial intelligence business unit and Palo Alto research center in the 1980's. Hausladen holds a bachelor of arts from the University of Minnesota, and an MBA from Golden Gate University.

ImageX Online Printing Center

The ImageX Online Printing Center(tm) is an e-commerce storefront. With unique technology, it provides businesses with the ability to manage, edit and print business communication materials ranging from business cards and stationery to full-color marketing materials. The service is accessible via secure, password-protected Web sites that have been customized for each ImageX.com customer. Every Web site contains the client's pre-existing company-branded templates including graphic images, logos and typefaces. The system provides consistent quality and delivery of corporate design standards, allows for instant modification and proofing, and enables distributed ordering for businesses with multiple office locations. This automation of the print ordering process reduces a formerly multi-day task to a matter of minutes.

About ImageX.com

Based in Bellevue, Wash., ImageX.com is a technology company and provider of e-commerce solutions that revolutionize the way businesses manage and print marketing communications materials. Founded in 1996, the ImageX.com team has grown to more than 70 people and serves over 150 corporate customers nationwide. ImageX.com is the winner of the Washington Software Alliance (WSA) 1997 Industry Achievement Award for "Most Promising New Company," and the 1998 Business Innovation Award from the Bellevue Chamber of Commerce.

For More Information

For more information on the company and the ImageX Online Printing Center, call 800/959-7845 or 425/452-0011, or visit its Web site at www.Imagex.com.

The Power of ImageX

How It Works

Product Overview

The *ImageX Online Printing Center*™ is a customized online service for ordering your color marketing materials — brochures, catalogs, product information sheets, postcards and more. We also offer business cards and stationery.

We create password-protected Web sites for our customers that enable them to order from their collection of company-branded templates of business cards, stationery and marketing/promotional materials.

With just a click of a mouse, corporate marketing and purchasing managers can gain complete control over their printed materials by reducing errors and unnecessary time spent managing the traditional print ordering and manufacturing process.

IMAGE X.COM

CAPABILITIES

HOW Our System Works

The ImageX Online Printing Center lets you take control of your business printing.

Free Consultation - Every customer has their own unique printing needs. Our account managers will show you how the ImageX Online Printing Center can reduce the amount of time and effort you spend ordering and managing your business printing.

Your Custom Online Printing Center is Built - We create a custom-tailored, password-protected Web site specifically for your company. This site will contain a digital catalog of your custom-printed business materials.

Your Corporate Standards and Company Information are Online - Because your secure Web site will contain all your graphics, logos, paper stocks, font styles and more, you'll have consistent control over the look and feel of your materials. Your company information, including names, titles, addresses, etc. are securely stored in an online database to bring consistency to your materials and make ordering easy.

Ordering Your Printing Online is Convenient - Now you can place orders from your computer 24-hours a day, 7-days a week. You just point-and-click through easy-to-use screens to order your marketing materials, stationery and business cards. When you make changes, a proof is instantly available on-screen and can be printed to your own desktop printer.

You're in Control of Your Printing - Let your remote offices place orders, yet manage the release into print production from your corporate offices. You can combine multiple orders together to take advantage of volume pricing. You can maintain visibility into the timing of delivery through online status reports.

Count on ImageX.com for High-Quality Printing - Because we maintain your graphic materials in an online database, we can reduce errors in the procurement and printing processes.

Responsive Customer Support is There When You Need It - If you need help, or have a special request, you can count on getting individual attention from our friendly, knowledgeable customer support professionals.
